

K-Love is a station that is on in our house 24 hours a day. We also listen to it in our car. I have friends who listen to it and I have heard it in some stores. It is an uplifting station for all in the community. This day when there are a lot of people depressed and going through lifes problems - this station is a refreshing relief. I often get in the car and just the "right" song is playing that I need to hear. Whether happy or sad just the right song!
